Re: PS Docket No. 07-114  
E911 Location Accuracy Exclusion Report Update  
Union Telephone Company

Dear Mr. Barnett:

On behalf of Union Telephone Company, and pursuant to FCC Rule Section 20.18(h)(1)(vi) for carriers using network-based technologies, submitted herewith is an update to the carrier's E911 Location Accuracy Exclusion Report submitted January 5, 2012. This Updated Exclusion Report identifies additional counties where triangulation of the geographical position of a 911 emergency call is not technically possible because of insufficient quantity, density and/or geometry of cell sites to support network-based triangulation that meets the accuracy standards. This circumstance was determined by measurements finalized within the last thirty days. For convenience, the Exclusion Report also lists previously reported counties.

Should any questions arise with respect to this matter, please communicate directly with this office.

Very truly yours,

Pamela L. Gist

Signing officer: Eric Woody, Chief Technology and Operations Officer  
Address: P. O. Box 160  
Mountain View, Wyoming 82939

I, Eric Woody, am an officer of Union Telephone Company. I have chief oversight responsibility for monitoring the overall status of location accuracy compliance under Section 20.18(h) of the rules of the Federal Communications Commission.

Union Telephone Company uses network-based technologies to provide E911 location services. Attached hereto is a list of newly reported counties where Union Telephone Company has concluded accuracy measurements and as a result is utilizing the FCC Rule Section 20.18(h)(1)(vi) exclusion from the Phase II location accuracy standards for network-based technologies because triangulation is not technically possible. Also included on the attachment are previously reported counties.

In accordance with 47 C.F.R. § 1.16(2), I declare under penalty of perjury that the foregoing is true and correct. Executed on April 20, 2012.
